Our efforts will further be able to get its sustainable livelihood and employment with MNREGA and if we want to achieve it, then what should be our approach and keeping it in the center, it was continuously talked about at the Panchayat and district level and it came out that in MNREGA The working laborers will have to be taken from self-empowerment to community empowerment and for this, why not a job hunter committee should be made from panchayat to district in which this state. Let's workers sit among themselves, they should have their own bylaws, priority of work and education. Where there is a gap in

implementation, they can work in a pressure group. Put your needs before the administration. With this thought in mind, the labor force federation was formed.
